

LOCKER LINK

Fall absorber designed for use with the LOCKER fall arrest device only.
Used to connect the fall arrest device to the harness.

DESCRIPTION

Enables the use of the LOCKER fall arrester by users with a weight of up to 150 kg (including equipment) and its use on inclined or horizontal surfaces, including the possibility of falling over an edge.

Includes a fall indicator that allows to quickly determine whether the energy absorber has already been activated.

Velcro cover protects the inner tear webbing from abrasion while allowing easy inspection.

Supplied with the Q FIX rubber keeper that fixes the carabiner in the ideal position.

HMPE tear webbing absorbs energy in the case of a fall, reducing the impact force on the user and the anchor point.

Its length allows the rope to be kept away from the work area, preventing damage.

Available in two lengths, 20 and 40 cm.

KEY FEATURES

- for use with the LOCKER fall arrester
- enables the use of the arrester by users up to 150 kg
- reduces impact force

STANDARDS

CE 1019

FEATURES

20; 40 cm
7.9; 15.7 in

1 person only

150 kg / 330.7 lb
with LOCKER

80 g; 2.8 oz (20 cm)
110 g; 3.9 oz (40 cm)

unique number

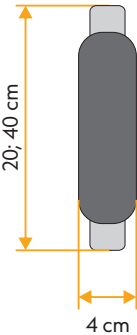

3 YEARS warranty

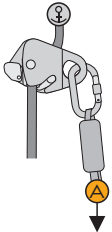

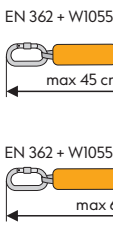

MATERIALS

- 87 % HMPE
- 10 % PES
- 2 % TPE
- 1 % PAD

TECHNICAL DATA

SET UP	CONNECTING ELEMENT	ROPE	USER WEIGHT
	EN 362 + W1055B020 + EN 362 max 45 cm	EN 1891 Type A: 11 mm	30–150 kg
	EN 362 + W1055B040 + EN 362 max 65 cm		

Lifetime of this product depends on the frequency and the environment (salt, sand, moisture, chemicals, etc.) in which is used. Without taking wear or mechanical damage into account and in compliance with the conditions specified in the instructions for use this product may be used 15 years from the date of production and 10 years from the date of the first use. However mechanical damage can occur during the first use, which can limit the lifetime of this products only to its first use.
