

ROCKALP

35+7

In the mountains, you need to rely... on yourself, on your partner and on your equipment. That's why we've designed ROCKALP, the durable mountaineering backpack for demanding conditions and terrain. Its weight and volume variability, sophisticated features and full back system make it the ideal companion for single and multi-day climbing adventures in the mountains. You'll love this pack because it was designed by climbers for climbers.

OTHER VIEWS

Back system made of non-absorbent EVA foam with cross ribs under the cover fabric which ensure effective ventilation. Smooth surface of the back system makes it easy to clean it of snow and other dirt.

On the waist belt, you'll appreciate the gear loop and elastic pocket for small items you want to keep handy.

Durable woven loop allows you to easily handle the pack.

Internal pocket on the lid for keys and small items.

Quickly accessible external zip pocket, so you will always have your topo, phone or snack at hand.

Zippered interior pocket in the main compartment stores your wallet or other valuables.

Removable compression straps tighten the volume of the backpack according to your needs; they are also used to hold skis (A-frame), a sleeping mat or other equipment. Helmet net is included in the backpack.

Under the lid there is a strap for attaching a rope or other gear; when the lid is removed, the entry to the main compartment is covered by a flap, the ideal solution for lightweight style.
